DO NOT USE A DAMAGED LADDER!

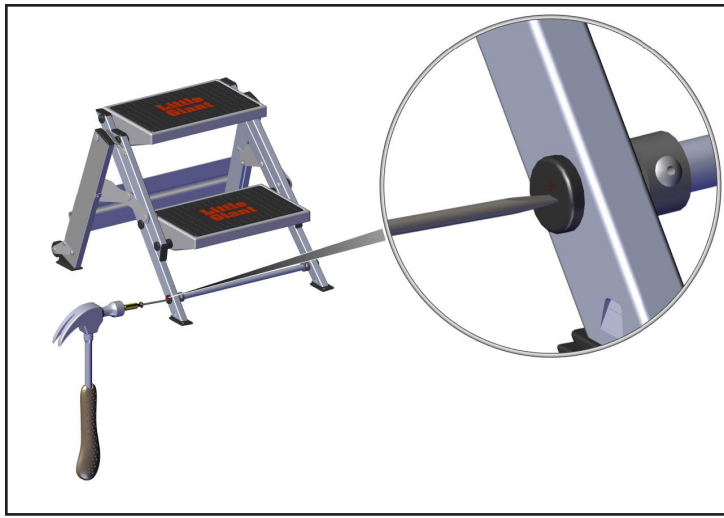

## BREAKDOWN

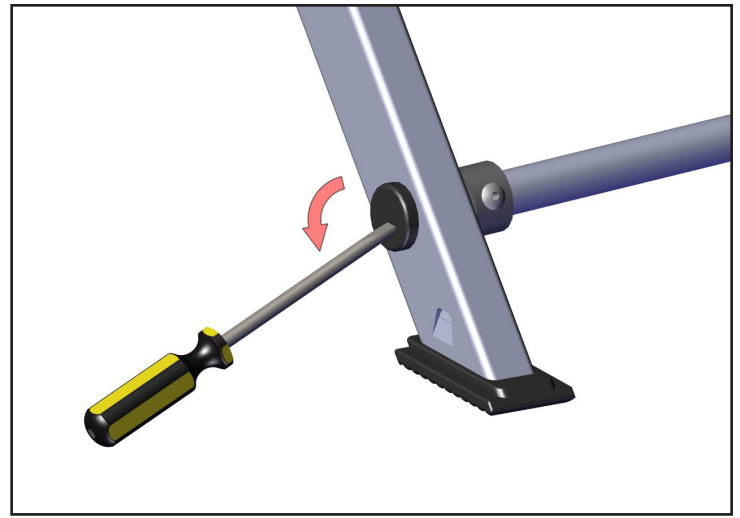

1. Steps 2-8 can be duplicated for all of the Shark Eye's on the Safety Step.

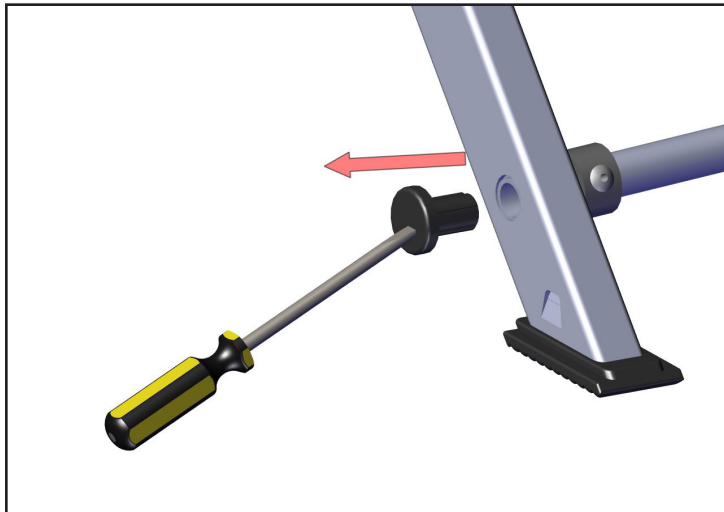

2. Locate the Shark Eye that needs to be replaced.

3. Take a hammer and a flat head screwdriver, place in the center of the Shark Eye, then tap butt of screwdriver with the hammer until the head of the screwdriver breaks through the face of the Shark Eye.

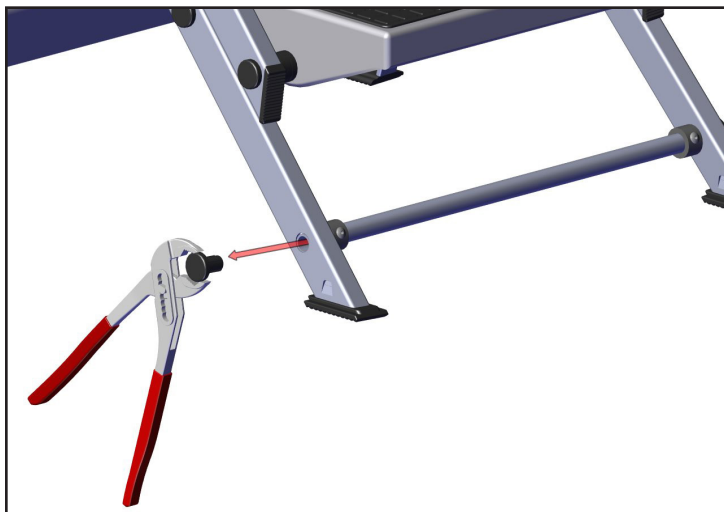

4. Apply leverage with the screwdriver.

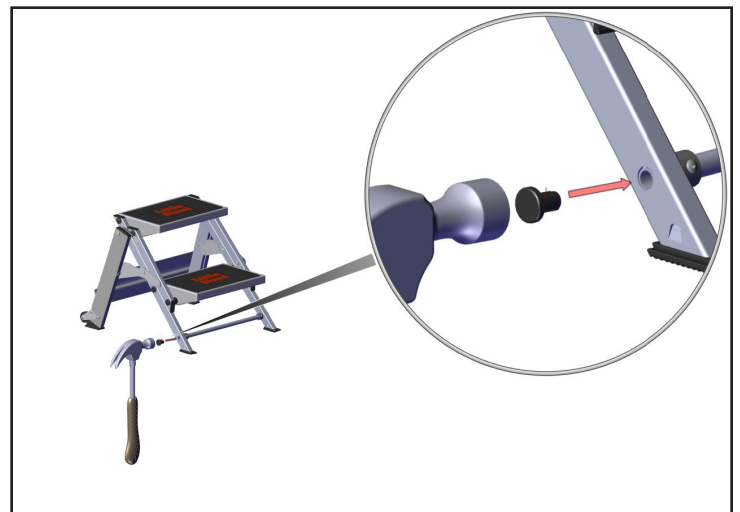

5. Use the leverage from step 4 to pull outwards, releasing the Shark Eye.

6. If steps 3-5 aren't effective, use pliers to loosen the Shark Eye.

7. Once Shark Eye is loose, pull free from ladder.

8. With the new Shark Eye (included in kit) and hammer, tap until fully seated.

9. When completed, stand the ladder upright and make sure the ladder is stable before use.
