

# RATCHET™ LEVELER CARE

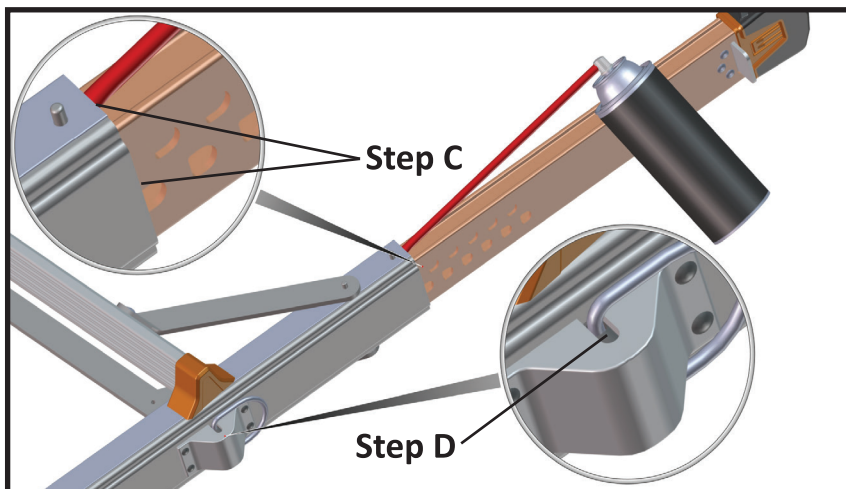

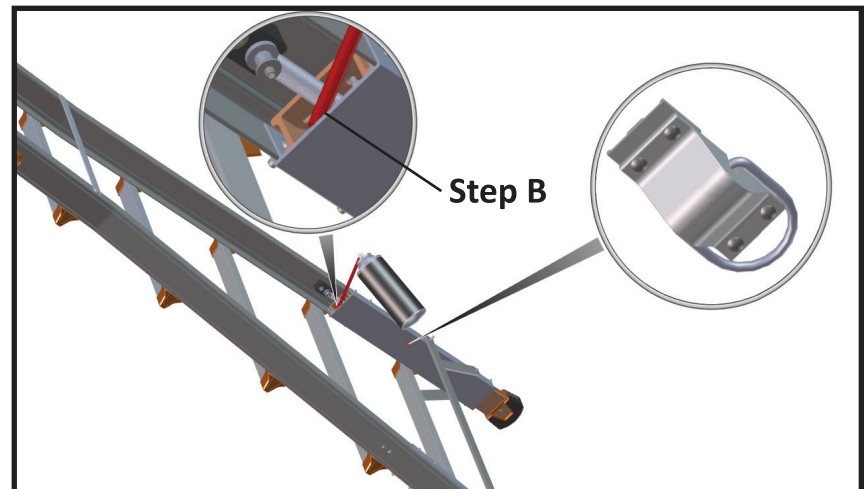

**CLIMB ON**

**Dry Lubricant that we suggest are:** 1. Dupont 2. Tri-Flow 3. B'Laster

**Step A:** Remove the outer assembly from the inner assembly.

**Step B:** Using **ONLY** a **Dry Lubricant**, generously apply to the inside of the inner tube. Angle the **Dry Lubricant** as such that it will spray the pin housing, clean off any excess lubricant.

**Step C:** Extend the Ratchet™ Leveler. Using the **Dry Lubricant** generously apply to the top, bottom and sides of the internal leg leveler (as shown in the illustration), clean off any excess lubricant.

**Step D:** Apply the **Dry Lubricant** generously to the inside of the pin housing located on the side rail (as shown in the illustration), clean off any excess lubricant.
