Little Giant Ladder Systems • 1198 North Spring Creek Place • Springville, UT 84663 • USA

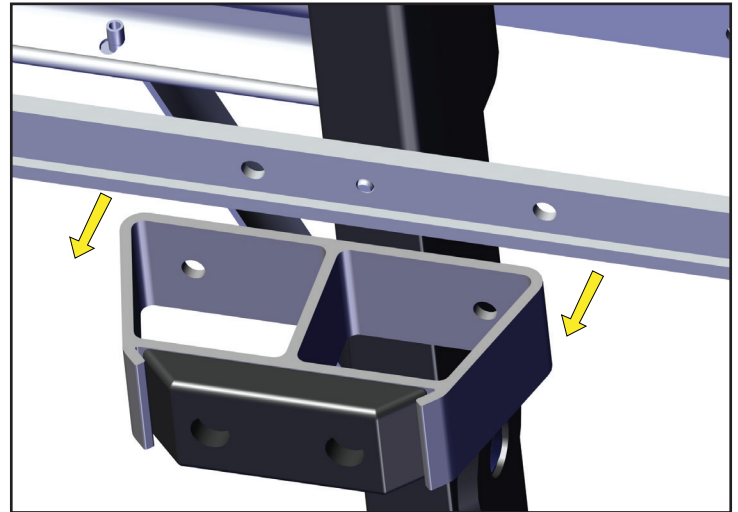

1. Identify the (2) areas where the bumpers are located.

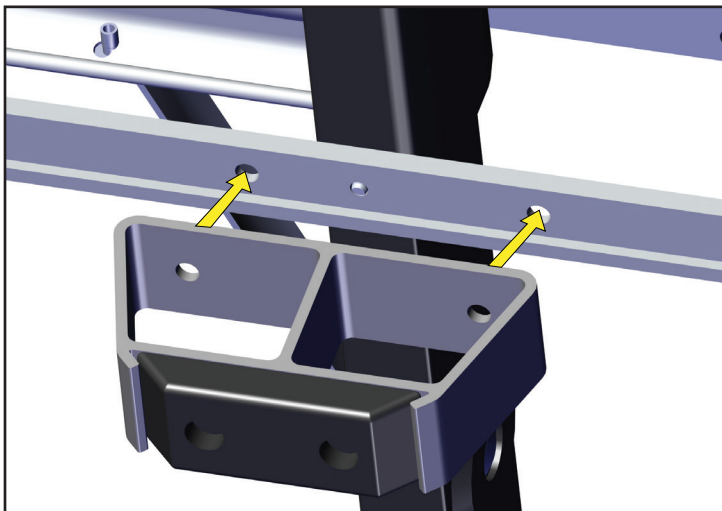

2. Using a 7/16" wrench and a 5/32" allen wrench, loosen the (existing) lock nut and socket cap screw.

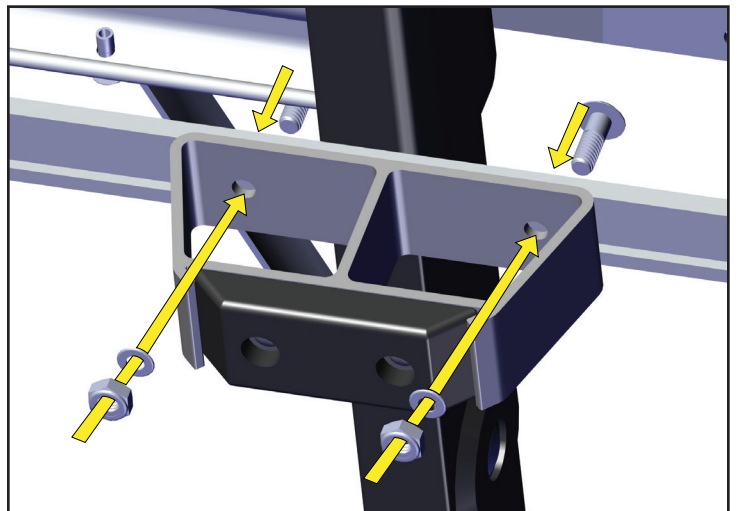

3. Once the (existing) lock nut and socket cap screw have been loosened, discard.

4. Remove and discard (existing) bumper.

5. Line up the (new) bumper with the (existing) holes.

6. Insert the (new) lock nut and socket cap screw through the bumper and bottom brace. Using a 7/16" wrench and a 5/32" allen wrench tighten the (new) lock nut and socket cap screw.

7. Once all of the steps have been completed, stand the ladder up and make sure that it is stable before use.
